Our counselors are having vast experience of working in various types of organizations including manufacturing industry, government organizations and Certification bodies/Notified Bodies. Besides, we have alliances with NABL accredited laboratories and other laboratories to help in conduct of tests on wide range of products needing product certification.

Our motto is not only to get the products/management systems of client certified against international standards, but to install an improvement oriented management system in the client organization. Our main aim is to build mutually beneficial, sincere and ethical business relationships with our worthy clients.

Our philosophy is to achieve excellence through sincere and consistent effort in the direction of improvements. Through our training programmes we at TCMS help in developing human resources so that their full potential can be utilized by the client organization.
